## **Synopsis**

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on March 27, 2012, which contained new or modified information collection requirements in 47 CFR 74.605 of the Commission's rules, requiring Broadcast Auxiliary Service stations operating in the 6875-7125 and 12700-13200 MHz bands to register their stationary receive sites, which would not be effective until approved by the Office of Management and Budget. The information collection was adopted in the Report and Order in WT Docket No. 10-153 which appears at 76 FR 59559, September 27, 2011. The effective date of the rules adopted in that Report and Order was published as October 27, 2011, except for § 74.605. Through this document, the Commission announces that it has received this approval (OMB Control No. 3060-1165, Expiration Date: March 27, 2015) and that § 74.605 will become effective on April 1, 2013.

Under 5 CFR 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a

current, valid OMB Control Number. The OMB Control Number is 3060-1165. The foregoing notice is required by the Paperwork Reduction Act of 1995, Pub. L. 104-13, October 1, 1995, and 44 U.S.C. 3507. The total annual reporting burdens and costs for the respondents are as follows:

**OMB Control Number:** 3060-1165.

**OMB Approval Date:** March 27, 2012.

**OMB Expiration Date:** March 31, 2015.

**Title:** Section 74.605, Registration of Stationary TV Pickup Receive Sites.

**Form Number:** N/A.

**Respondents:** Business or other for-profit entities, not-for-profit entities, and state, local or tribal government.

**Number of Respondents and Responses:** 75 respondents; 314 responses.

**Estimated Time per Response:** 3 hours.

**Frequency of Response:** On occasion reporting requirement.

**Obligation to Respond:** Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 303 and 308 of the Communications Act of 1934, as amended.

**Total Annual Burden:** 942 hours.

**Total Annual Cost:** \$156,750.

**Nature and Extent of Confidentiality:** There is no need for confidentiality.

**Needs and Uses:** Section 74.605 requires that licensees of TV pickup stations in the 6875-7125 MHz and 12700-13200 MHz bands shall register their stationary receive sites using the Commission's Universal Licensing System. TV Pickup licensees record their receive-only sites in the Universal Licensing System (ULS) database, including all fixed service locations. The TV Pickup stations, licensed under part 74 of the Commission's rules, make it possible for television and radio stations and networks to transmit program material from the sites of breaking news stories or other live events to television studios for inclusion in broadcast programs, to transmit programming material from studios to broadcasting

transmitters for delivery to consumers' televisions and radios, and to transmit programs between broadcast stations. Registering the receive sites will allow analysis to determine whether Fixed Service links will cause interference to TV Pickup stations.
